The 2011 Annual MMBA Regional Meetings Have Been Scheduled Around the State.

Prior to Each General Session, there will be a Computerized Inventory Control Q & A

Total Register Systems is the computerized inventory control system provider for a very large number of facilities. Steve Grausam of Edina Liquor will address common questions concerning system operations. (How to print certain reports, make accurate inventory adjustments, obtain certain data etc.) This is not a sales presentation, but a seminar to explore how to use your TRS system to benefit your liquor facility.

If you do not have TRS, the concepts discussed can be applied to your situation.
